Ocala Florida Estate designed by Dee Dee Eustace

WELCOME HOME

BG EQUESTRIAN RESORT, OCALA FLORIDA

There are few places that make our jaws drop, very few actually. The common denominator in most of these jaw-dropping moments is typically a magnificent natural setting coupled with a stunning property. In all cases, nature is definitely a must. BG Equestrian Resort can easily be described in one word – breathtaking. With a 10,000 square foot 7-bedroom great house, an unparalleled equestrian facility and over 100 miles of pristine trails, this is any rider's dream come true. The BG Equestrian Resort specializes in horseback riding vacations and equine clinics for the seasoned rider, as well as the beginner, but also offers all the amenities for a wonderful family vacation including pools, a red train and a carousel!

There is something to be said about travelling; but nothing says breath out, exhale, now just relax and let it all go... more than actually living while you travel. Getting to unpack and experience your journey like you actually own the place is another experience in and of itself. I promise you once you start to travel and vacation this way, you will not go back to your old travel ways. The Ocala Florida estate is the flagship of the BG Signature group of properties, but with properties in locations as varied as the Bahamas and Whistler, it is difficult to decide which is the most incredible. Why choose? Just enjoy them all!
